PROGRAMMING MANAGER'S LETTER:

A MESSAGE FROM LCC PROGRAMMING MANAGER LISA OVIATT

Dear LCC Family,

I hope this letter finds you all well and expectant of celebrating Jesus' birthday. It is, after all, the reason for the Christmas season and the reason for our being together at Lighthouse Christian Camp. I am so pleased to be your Programming Manager! It has been fun for me to plan and implement some new things, and look forward to another season of camps, special events, and Sunday morning speakers. I am already working on things! But I am guessing that does not surprise you. It's going to be a summer of transition for me and Lighthouse Christian Camp. We will have a new General Manager, a new grounds crew, new Camp Store personnel and a fairly new office staff. Because of that, the word for this summer is going to be "PATIENCE". I encourage you to pray for LCC, the board members, the anticipated new staff, and for the people God plans to minister to through LCC and its facilities, camps, and events. We are tremendously blessed to be part of something so special. Becoming frustrated with or complaining about how things are happening will not encourage the COMMUNITY and UNITY we have developed over the last two years. Instead, look at this summer as an opportunity to see LCC with fresh eyes. Where might you be able to serve or volunteer? I know I am always looking for people to help! A lot of us "newbies" are going to need information. Those of you who have been around the block a few times are invaluable. You are prayer warriors and encyclopedias full of facts, details, and memories! Share with us! And be patient!

Of course I cannot let this opportunity to go by without inviting you to our first ever Sweetheart Gala! Everything you need to know is on the second page of this month's *Spotlight*. I am hoping it will be the start of a new LCC tradition and an evening to always remember. Please consider coming and bringing some friends. Tickets are limited so call the office today!

Love you all!

Lisa Oviatt, LCC Programming Manager
